# The Hampton Hub

## Concept Design Project Update: September 2023

During the month of September, the project team continued to refine the project program presented previously to an “optimized” space requirements program. The optimized program reduced the required space from approximately 32,000 gross square feet to approximately 24,000. The reduction was achieved by realizing efficiencies between various spaces, and based on the assumption that the new facility will be located adjacent to the existing Library.

The team also had the opportunity to present project updates to the Hampton Board of Selectmen at their September 11th, 2023 meeting. Board members provided feedback and encouraged the team to continue, emphasizing the importance of public feedback. A public “listening session” is scheduled for the month of October.

### NEXT STEPS:

- Community feedback on work to date
- Preliminary concept design
- Preliminary budgeting
